## Election Contest School Trustees

Chairman Reid, Frank H. Graham and James H. Naylor Again Nominated—Slate of Three Opposing Them, N. Fleming, W. Fraser and P. Sharp.

### Councillors By Acclamation

Election on Monday from 10 a.m. till 7 p.m., with James Ford as Returning Officer.

Nominations on Monday resulted as follows:

Councillors W. Chapman, J. Plante and W. L. Borrowa were re-elected by acclamation. They were elected two years ago in a contest in which the other candidates were E. W. Beart and Andrew Harry.

The three trustees whose terms have expired, viz., Arthur Reid, Chairman, Frank H. Graham and James H. Naylor, have been re-nominated by supporters who believe they should be returned in recognition of their services during the past two years, and see to completion the new high school which was commenced in October.

Nominated in opposition to them are Nelson Fleming, William Fraser and Pete Sharp. The remaining trustees who have another year to go are George Hope and R. M. Greenhalgh.

In regard to nominations for school trustees, a report is in circulation to the effect that the Miners' Association were asked to officially endorse three candidates in opposition to the present trustees, but that no action was taken. This report is neither denied or confirmed by the Association. The election will be fought on the individual merits of the candidates and their records.

There have been various rumors, as always at election time, as to reasons of candidates running, which can usually be taken with a grain of salt. These are mostly of a personal nature according to the viewpoints of individuals regarding candidates; and are not concerned with issues that really count.

The three time-expired trustees are being supported by those who are in accord with their administrative policy of the past two years, and as a tribute to the untiring work of Chairman Arthur Reid, who has given a lot of time and careful thought to his duties, especially in connection with bringing to fruition the erection of the new high school. His colleagues on the board, Postmaster Frank H. Graham and James H. Naylor, have also been in thorough accord with the general policy of the board.

The three candidates opposing them have not made any statement as to their reasons for accepting nomination.

The annual meetings of ratepayers of the town and school district held on Friday evening were attended by less than 50 people, three ladies being present. Councillor Haysom as deputy mayor presided at the town meeting, and read the mayor's report for 1936. Councillor Borrowa read the auditor's statement and report. Councillor Chapman made a brief report.

## Cole's Theatre

BELLEVUE, ALBERTA

Thursday, Friday and Saturday, February 4, 5 and 6

with JEAN HERSHOLT JOSEPH CALLEIA  
a W. S. VAN DYKE production

She fell in love with Bob! She married his brother—but that's only the start!

also Paty Kelly in "PANHANDLER" and Canadian News

Coming Monday, Tuesday and Wednesday, Feb. 8, 9 and 10  
DOUBLE PROGRAM. TWO REAL HITS

1. Evelyn Venable and Robert Young in "VAGABOND LADY"  
and  
2. Madge Evans, Chester Morris in "MOONLIGHT MURDER"

Coming Thurs. Fri. and Sat., February 11, 12 and 13  
Jean Arthur in "ADVENTURE IN MANHATTAN"

### It's Absolutely Wrong!

You have heard the oft-expressed phrase—"All things come to he who waits."

IN Business Life if one waited he would accomplish little. He who is aggressive and by forceful messages in The Journal proves he is not one who waits is the one who wins the most business.

JOURNAL advertisements have pulling power.

### Caledonian Society Honored Scottish Poet at Anniversary Banquet

Local Artists Contribute to Program and Speakers Eulogize. Robbie Burns.

One hundred and thirty "brither Scots" and friends gathered in the I.O.O.F. hall on Friday evening to pay tribute and homage to the great Scottish poet, Robert Burns, on the 178th anniversary of his birth. The banquet was sponsored by Coleman Caledonian society which has made Burns' night an annual event since it organized here some years ago. Mr. J. O. C. McDonald was chairman.

The program opened with "O Canada," followed by Peter Smith proudly bearing aloft that tid-bit of Scottish delicacies, "The Haggis." It was borne triumphantly to the table of David Gillespie who, with great reverence, gave the Selkirk toast to the Haggis. After the address those present sat down to a sumptuous feast on heavily loaded tables.

The program was as follows: Toast: "The King" by Rev. J. H. Bevan; Songs by Miss Mamie McLellan, "We Better Bide A Wee" and "O Scotland I Love Thee"; violin selection by Mr. Max Fratkan, accompanied by Miss Beatrice Trono on the piano.

A ballet dance by Hube, a folk dance and "Ye Banks and Braes"; Rev. A. E. Larke sang "The Star O' Robbie Burns," "Last Lass of Braw Mear" and "My Nannie O"; selections on the bagpipes by Mr. J. Moore; recitations by Mrs. Robt. Holmes, "Burns, the Pride of Every Scot," and "Kissed in the Tunnel." Toast to "The Immortal Memory" was given by Rev. A. E. Larke. Mr. J. J. McIntyre gave the toast to "The Land of Our Adoption" and Rev. Father Dunbar gave the toast "To The Lassie"; Mr. Peter Smith sang "The Hame Land" and "The Wells O' Wearie." Mr. George Kellogg gave a vote of thanks to the artists and the ladies responsible for the excellent supper. The Misses Peggy Gillespie and Freda Antobius accompanied some of the artists on the piano. At the conclusion of the program, all stood up, joined hands, and sang "Auld Lang Syne."

After supper the floor was cleared and dancing was enjoyed until 1 a.m.

Playing a postponed league game here last night Lethbridge Maple Leafs defeated Blairmore Bearcats in a free scoring game by a 7-6 score. Neither team played anything that resembled brilliant hockey, both attack and offensive play on either team being woefully weak. Jack Kwanie for the Cats and Stewart of the Leafs were the outstanding players of the evening, although Ainsworth of the Leafs led his team in scoring points garnering three goals.

### United Church Annual Meeting and Reports

Obligations for 1936 Met by Using Part of 1937 Income—Reports Generally Encouraging

The annual meeting of the United Church was held on Monday evening. The attendance was small but rather better than last year. The devotional period was led by the minister, who also presided at the business meeting. The various organizations reported as follows:

A group of young girls and boys known as the Tinklers, under the leadership of Miss Ethel Dunlop, reported regular meetings through the greater part of the year. They had presented a much needed pulpit lamp to the church and sent a gift to a Children's Home in Edmonton.

The Women's Missionary Society again raised their financial allocation and followed the regular study course during the year. Special reference was made to the Home Helpers and their good service to the society. This group in the congregation has an enviable record over a period of many years.

The Sunday school reported all accounts met and a balance in hand. There are well over a hundred children enrolled. The school is gaining ground although it would appear that a great many Protestant children in the town do not attend any Sunday school. The United church school has been fortunate in the character and faithfulness of many of its workers. It is sometimes felt that the parents might show a little more practical interest in the work of the school.

The Ladies' Aid also reported an active and profitable year. Their obligations to the general funds of the church had been met and extra expenses in connection with the church and manse buildings taken care of. While the sum of about \$500 was raised, there are still some obligations to be carried over with the New Year. The usual program of events is planned for 1937.

The general report of the congregation was taken last. An improvement in the offerings at the Sunday services was noted, but there was a marked falling off in annual and special subscriptions. By following the expedient of using the income for January of this year the obligations for 1936 were taken care of. But for the extra demands having to be met during 1936 there would have been no emergency. It was also pointed out that there is still quite a number of people who have not yet given any help in response to the year-end appeal, both annual subscribers and those who usually give a weekly offering. These are asked to do their part as soon as

### RICHARD TIFFIN SERIOUSLY INJURED IN MCGILLIVRAY ACCIDENT

His foot injured by loaded cars on a "dinky" locomotive early Tuesday morning in McGillivray mine, Richard Tiffin, driver boss, was removed to hospital where amputation of the foot was performed by Dr. Borden. The shock was very severe, but it is hoped that he will improve.

He was riding on a mine locomotive when it jumped the track, and in jumping from the engine, he was caught by a mine car, which crushed his foot. Time of the accident 1:15 a.m.

Mr. Tiffin has been unfortunate. Some sustaining injury to his foot on Saturday by being run over by an empty mine car. Fortunately no bones were broken, it is reported. He was immediately removed to hospital and is making progress towards recovery from the shock.

### INJURED AT INTERNATIONAL

A. McQuarrie, chute loader, 20 years, sustaining injury to his foot on Saturday by being run over by an empty mine car. Fortunately no bones were broken, it is reported. He was immediately removed to hospital and is making progress towards recovery from the shock.

### TELEPHONE BRIDGE WINNERS

In aid of St. Alban's church, a telephone bridge was held at various homes of parishioners on Thursday evening, as follows: Mr. and Mrs. Davidson, Mr. and Mrs. Martland, Mr. and Mrs. Penny, Mr. and Mrs. Van Duzee, Mr. and Mrs. Reg. Hay, and Mrs. Bosworth and Miss B. L. Dunlop contributed in place of having tables.

Prize winners were J. V. Northam and Mrs. I. P. Helsen, and consolation prizes, T. W. Williams and Mrs. Bosworth. Mrs. Fred Antobius donated the lady's prize and Mrs. Corbett the gent's. Mrs. McMullen donated the consolation prizes. Twenty-six tables were in play. Mr. Davidson, as committeeman in charge, thanks all who helped.

Miss Marie Naylor, who has been on the staff of St. Alban's hospital, stopped off at her home off at her home here to visit her parents before going to Nelson where she will join the staff of the East Kootenay General hospital.

possible so that the sum taken from this year for last year may be made good. The board are trying to avoid the necessity of having to go hat in hand to the membership for support.

It was shown that well over \$500 had been expended locally by the congregation for goods and services apart from the stipend paid to the minister. The report was encouraging except for the deficit which ought not to have occurred. Mr. Jas. Gleneden was secretary of the meeting and no election of officers was deemed necessary. The usual cordial thanks to those bearing special responsibilities were expressed. Mr. Wm. Lees making special reference to the organizers, Miss Gwen Brown and Miss Lorraine Rippon.

### Canadians Again Trim Maple Leafs Exhibition Game

Fans Eagerly Anticipating Play-offs; May Start Last Week of February. Awaiting Word From President Vincent Stanley.

Lethbridge Maple Leafs have proved themselves definitely inferior to Canadians in regard to their general hockey ability. Six games have been played between the clubs, Canadians winning five. On Saturday evening Canadians won a 4-2 decision over the Leafs in an exhibition game that rivaled a regular play-off game so keenly was it played, added to which was the riotous behavior of a number of fans. This is a home and home series, total goals to count. The return game will be played next week.

Blairmore Bearcats were taken over the jumps for two league games this week at the local arena by the Canadians, scores being 6-3 and 4-1. Bearcats played hard in both games and held their share of play but failed to be as effective around the net as the locals and as a result lost both encounters.

Calgary Radios, the junior team which holds a victory over Canadians this season, will be back to gain two more victories if possible on Thursday and Friday. Radios have high ambition of winning the provincial junior title and consider stiff competition against Canadians a means of gaining this end.

The draw for the senior play-offs is the subject of much discussion among local hockey fans. In a Canadian Press despatch last week, giving a brief summary of Western teams contending for the Allan Cup, it was stated that Luscar had disbanded. If this be true Coleman gains a bye into the final as they would have been called upon to play Luscar. Teams in the Big Six league are fighting it out among themselves for the right to enter the provincial final. H. C. McBurney wrote to Vince Stanley, secretary of the A. H. A. at High River, on Monday on the Luscar question and until he gets a reply nothing definite will be known.

## To Help You AVOID MANY COLDS

At the first nasal irritation or sniffle, apply Vicks Vapo-Nol—just a few drops up each nostril. Used in time, it helps prevent many colds entirely.

## VICKS VAPOR-NOL

### Cinderella Resources

The hunt for the hidden wealth which lies at varying depths beneath the soil and rocks of the prairie provinces in the form of gold and silver, petroleum and nickel, copper and zinc in unknown quantities and values is firing the imagination of the people and their respective governments in the west.

There is an allure, a glamour, in the thought that there may be gold "in them (bar) hills"; in the possibility that beneath the feet of those who tread the soil there may be great pools of liquid wealth awaiting the drill to gush into a torrent of dollars; in the prospect that a chip of the hammer may unearth a heavy vein of rich silver or reveal the presence of the peacock iridescence of a great deposit of copper.

Moreover, the search for dormant riches of this kind awakens within the human breast the sporting proclivities, the gambler's spirit which is inherent in greater or less degree in almost every normal person, though it may not always be recognized or admitted as such. There is disappointment to-day, but tomorrow the searcher will be rewarded. El Dorado may be hidden, but it is at hand.

It is this firm conviction which enables the prospector to carry on his arduous task, through weary years crowded with disappointments and small returns, to exist in poverty and sometimes on the borderland of hunger in lone wildernesses, endure the hardships of severe climatic conditions without consenting amenities and sometimes to die without realizing the great dream which haunts his daylight hours and accompanies his slumbers.

And in the cities and towns are men in stores and offices, and in the country farmers walking behind the plow who are dreaming the same dreams, the hope of wresting wealth from the depths, if not by themselves directly, through the agency of others in the form of prospectors. They are willing to risk the treasure, and sometimes more than they can afford, to finance the active searchers or to buy stock in concerns engaged in that pursuit.

Like the lonely prospector in the field, they, too, are often doomed to disappointment. A few may win great rewards, some may reap reasonable returns, but the odds are against them, for Nature is cunning and unrelenting. She hides her stores of treasures in unexpected places and guards them with unforeseen obstacles. It is this very capriciousness which gives the hunt its great allure and gives birth to the hope which urges the hunter ever onward.

Yet, knowing full well the handicaps against them, people are ever willing to take a chance in the hope of striking something big which will amply recompense them for expenditure of much coin and great energy. It is as well that it is so. For if it were not for this gambling spirit much of the world's treasures now being converted to the use of mankind would never have been discovered.

On the other hand, however, the romance which attaches to the reports of almost daily discoveries of deposits of ore is apt to overshadow other and more stable though less risky potentialities, of which there are evidences on every hand.

Reference is made to the non-metallic resources which, as is well known, are to be found in abundance and great variety in the prairie provinces of Western Canada.

In the three sister provinces are to be found substantial deposits of valuable salts, sodium sulphates, salts, chemical substances, pigments and many other more or less humble and unassuming non-metallic resources which are nevertheless invaluable to mankind when processed. These deposits have been located, their extent determined, many of them are easily accessible to transportation facilities and only await the aid of the scientist and the capitalist to convert them into commodities, marketable not only in the prairie provinces, but in some cases, in other parts of the Dominion and other countries.

Analytical chemists and engineers, who are familiar with, and have done a considerable amount of experimentation work with many of these non-metallic resources, are responsible for the statement that if the same amount of energy and money as has been invested in the hunt for the more spectacular metals, had been devoted to the development of these known resources, many flourishing industries might have been started and be well on the way to reaping profitable rewards for their sponsors.

It is admitted that under existing economic conditions it may be difficult to enlist local capital in such enterprises, but in the Old Land capital is available for undertakings of this kind, provided the opportunities are made known.

This suggests that the time may be ripe for the provincial governments to at least inquire into the feasibility of a publicity campaign in Great Britain in an effort to induce local capital to take up enterprises of the nature referred to and put to some real use great assets which to date have either been disregarded or developed to a very small extent.

### Aviator Loses Propeller

But Makes Perfect Dead-Stick Landing Without Injury

When the propeller parted company with his plane at an altitude of 3,000 feet in the fog, Pilot Alex. Dume, Mackenzie air service, made a perfect dead-stick landing without injury to his passengers or damage to his craft.

Dume was flying through fog in which visibility was almost nil above the snow-covered Athabasca river delta, when with a sudden jerk the prop came loose.

The plane went into a nose dive and Pilot Dume, not yet aware what had happened, pulled it out and leveled off, then, discovering the prop missing, he coolly and skillfully piloted the machine to a dead-stick landing.

Britain spent \$750,000 in 1930 fighting rust corrosion.

### How To Overcome Piles And Rectal Soreness

If you are annoyed with itching piles or rectal soreness, do not neglect the same or run the risk of an operation. Any itching, soreness or painful passage of stool, is nature's warning and proper treatment should be secured at once. For this purpose get Paro-Sani, a powerful ointment and use as directed. This formula, which is used internally, quickly relieves the itching and soreness and aids in healing the sore, tender spots. Internal use is a physician's prescription and is highly recommended. It is easy to use and it means the best relief for you. To risk an operation when a simple remedy, which is so pleasant to use may be had at such a reasonable cost.

### Likely It Hurt

But Soviet Walter Returned Customer's Tip On Principle

Evidence that the drive against tipping being carried on by the Soviet authorities is making an impression upon some of the recipients of gratuities is found by the Moscow News in the following note sent by a hotel waiter to a guest.

"Citizen, I have learned by chance that you live in our hotel. Yesterday you had supper here and when you paid the bill left me a tip. I consider this humiliating. I am here with returning your money with the suggestion that you spend it more rationally. Please do not forget that you are not dealing with a former bartender but with a Soviet employee, a member of the Communal Feeding Workers Union and a student of the English department of the State Institute of Foreign Languages.

Named After Birds

The London Times says the seventeen locomotives now under construction at Doncaster to haul the new "Coronation" streamlined express of the L.N.E.R. between London and Edinburgh are, in view of their streamlined form, to be named after birds. The first five will be called Golden Eagle, Falcon, Merlin, Kingfisher and Kestrel.

Despite the difference in size the deer makes less noise than the turkey in walking.

### Document Cannot Be Found

Germany's Declaration Of War On France In 1914 Still Lost

A mystery which has defied the best minds in the French Foreign Office has cropped up again in Paris: the disappearance of Germany's official declaration of war on France in 1914.

French Rightists resurrected the puzzle of the missing document, linking it with the arrest of Suzanne Linder, Foreign Office employee charged with forging documents.

One newspaper asserted Mme. Linder's arrest brought the disappearance to light but government officials said the historic note had been sought since it was found to be missing from the files in 1928.

Just what became of it after Baron von Schoen, German ambassador to Paris, handed it to Premier Rene Viviani on August 3, 1914, is not known. Presumably it was filed but a committee formed in 1928 to edit documents concerning the origins of the Great War was unable to find it.

The late Raymond Poincaré quoted it in his memoirs. It is believed he worked from the original.

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out Of Bed in the Morning Rarin' to go

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sick and the world looks pink. (The liver's movement doesn't always get on the liver as well. It takes those good, old Carter's Little Liver Pills to get these bad poisons out of the body and make the liver flow freely. It's a natural law of nature that if you have a cold or a fever in your liver, ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

### Opposes Isolation Policy

Speaker Says Not Consistent With British Nationality Of Dominion

Failure of members of the League of Nations to back the system of collective security had intensified the imminent danger of war, Professor P. E. Corbett, former dean of the McGill University law school, said in a public address delivered under the auspices of the Dalhousie University Institute of Public Affairs at Halifax.

The desire of several elements in Canada for a foreign policy of neutrality and isolation was condemned by Professor Corbett as not being consistent with the British nationality of the Dominion or with its place in world commerce.

"To cry peace is no foreign policy," he declared and added he considered isolation or neutrality "an impossible and untenable status."

### An Important Product

Wood Is Now Being Used In Many New Ways

An article in the Victoria Colonist says so much is heard about substitutes for wood that there is a general belief that the daily use of it is decreasing. This is not the case, says the forestry branch of the Dominion Bureau of Statistics. The production of wood used in the modern building has recently reached its minimum and is now tending to increase. More wood is used in the manufacture of automobiles than was ever used in making carriages and wagons. New uses for wood are being developed daily. Artificial silk, linoleum, explosives and many other products, to say nothing of the enormous annual increase in the use of paper made of wood, all tend to make this material more important.

### Cannot Be Done

No Oil Concessions In Morocco For Anyone To Acquire

The story out of Paris that Germany is playing for an oil concession in Morocco would explain a great deal, says for two pertinent facts: 1—Morocco has no oil. 2—Its own need of oil is great enough that it imports about \$75,000,000 worth annually.

So the situation is not dissimilar to that of the helpful soul who could not lend her wash tub because: 1—The tub was being used to soak clothing. 2—The tub had a hole in it. 3—She didn't own a tub.—Detroit News.

### Good Chance To Advertise

It was the village crier and Miss Brown was concurred repeatedly for her recitation of "The Village Blacksmith."

On coming behind the stage for the second time she was accosted by a burly, fair-haired man.

"I'm the man you've been talking about," he said. "Will you tell them when you go back again that I've bicycles to hire as well?"

## THERE IS Smoking Satisfaction IN EVERY PACKAGE

**Buckingham FINE CUT**

### Storing Gold

United States Government Put Two Hundred Million In Underground Vault

Here is a riddle. What is it that is so valuable that it no longer has any value for us, so useful that we are no longer permitted to use it? The answer is easy. It is our stock of monetary gold. The law denies us the right to use this metal as a circulating medium. The Government has undertaken the double precaution of "sterilizing" a certain excess of gold by formal decree, thus making it impossible to employ it in trade or finance or as a base for bank credit.

At the same time the Government considers the gold so valuable that it is now in the process of hiding it away in a hole in the ground out in Kentucky.

Something like \$200,000,000 in bullion has already been transferred from the Philadelphia Mint to this underground vault. Eventually more than \$4,000,000,000 in gold bars and coin will be stored away there.—Baltimore Sun.

### SELECTED RECIPES

#### MOLASSES COOKIES

Temperature: 375 degrees F. Time: 15 minutes.

1/2 cup shortening required. 1/2 cup molasses; 1/2 cup corn syrup; 1/2 cup hot water; 2 tablespoons lemon juice; 2 cups Royal Housekeeping flour; 3 teaspoons ginger; 3 teaspoons baking soda; 1/4 teaspoon salt; 1 teaspoon cinnamon; 1/2 cup brown sugar.

Cream the shortening and add molasses, corn syrup and hot water. Mix until smooth and add lemon juice. Sift together flour, ginger, soda, salt and cinnamon; add sugar. Stir into first mixture. The dough will be very soft, so chill thoroughly. Break off small pieces of the dough and roll into small balls between the floured palms of the hands. Place on greased cookie sheet about one inch apart and flatten with the times of a fork, first one way and then the other. Bake 15 minutes in a moderate oven.

Recipe by Mildred Mae MacKenzie Copyright.

#### CHRISTIE'S MAGIC LEMON CREAM PIE

(No cooking required.) 1 1/2 cups (1 can) sweetened condensed milk; 1/2 cup lemon juice; 2 cups Royal Housekeeping flour; 1/2 teaspoon lemon extract; 1/2 cup whipping cream; 2 tablespoons finely powdered icing sugar.

1/2 pound Christie's vanilla wafers. Blend together sweetened condensed milk, lemon juice and grated lemon rind, stirring until thoroughly blended. (It thickens just as though you were cooking it, to a glorious creamy smoothness.)

Cover bottom of eight-inch pie plate with Christie's vanilla wafers and cut enough wafers in halves to stand around edge of pie plate, filling spaces with water crumbs.

Fill pie plate with filling, chill thoroughly and cover with whipped cream, sweetened to taste with icing sugar.

It is said that one person in every three in the United States resides in a state other than the one in which he was born.

A quiet little man got up from the corner of the bar and said quietly: "Excuse me, sir, but have you ever had D.T.s?"

"No, course not," snapped the traveller.

"Then you've seen nothing."

"No, course not," snapped the traveller.

"Then you've seen nothing."

"No, course not," snapped the traveller.

"Then you've seen nothing."

"No, course not," snapped the traveller.

### Interchange Of Empire News

General Manager Of Canadian Press Urges Co-operation In Britain

Prompt consideration of The Canadian Press proposal for co-operative interchange of empire news was urged before the Empire Press Union's annual meeting in London by J. F. B. Livesey, general manager of The Canadian Press.

He recalled that the Canadian section of the union had pressed the scheme at imperial press conferences over the last 10 years and was vitally interested in setting the idea in motion towards its goal. All sections had endorsed the principle, but it had not actually progressed.

"In these discussions it has been said that empire news is not wanted in these islands (the United Kingdom) that it lacks the virtue to make your front pages," Mr. Livesey said. "Here in Canada drifting under the influence of the dominions it is not news. The walters of Australia are dark with the shadow of the Orient columns; it is not news. In Africa, black is calling to black; it is not news."

Sir Stanley Reed (Times of India), chairman in the absence of Major J. J. Astor, referred to the council's efforts to achieve cheap empire communications.

"I shall never have been satisfied until we reach an imperial press rate for deferred traffic of a penny a word," Sir Stanley said.

### Doctor Has New Idea

Believes Owning A Dog Is Good Cure For Nerves

Newest cure for nerves? "Get a dog!" A Toronto physician prescribes the treatment and his patients say it works.

An out-of-town business woman working under high pressure felt she was near the breaking point, but didn't dare go to her own doctor. She knew the verdict would be, "You'll have to take a rest." Some one recommended the Toronto doctor.

After an examination, he said: "You don't know how to relax, do you?"

"No," she replied after a pause, "I don't believe I do."

"Well, get a dog," he told her. She did. Now, when she arrives home at night she is greeted by her canine friend, who, with his antics, soon takes her mind off business worries. Before she retires she takes him for a stiff walk. When she gets to bed she sleeps the sleep of the contented mind.

"Soundest medical advice I ever got," she says.

### Collects Railroad Lanterns

Comerican Man Has Two That Were Used In 1860

Collecting railroad lanterns is the unusual hobby of a New Britain (Conn.) man, who has 80, representing 40 railroads from New England to the Middle West. He has found them along railroad tracks, in attics, cellars, antique shops, junk heaps, says the Delaware & Hudson Railroad Bulletin. Two date back to 1860, one used by the Adams Express Company and the other from the New York, Lake Erie & Western Railroad. In addition, he has two brass ship lanterns that were used, on Lake Ontario in 1864. They have quartz glass globes and twin-tube oil founts.

### Plenty More To See

A traveller was boasting in a public bar of the wonderful things he had seen all over the world. He declared there was nothing he had not seen.

A quiet little man got up from the corner of the bar and said quietly: "Excuse me, sir, but have you ever had D.T.s?"

"No, course not," snapped the traveller.

"Then you've seen nothing."

"No, course not," snapped the traveller.

"Then you've seen nothing."

"No, course not," snapped the traveller.

"Then you've seen nothing."

"No, course not," snapped the traveller.

"Then you've seen nothing."

"No, course not," snapped the traveller.

"Then you've seen nothing."

## Here's that Fast "Phillips" Way To Alkalize Stomach Quickly

On all sides, people are learning that the way to gain almost incredibly quick relief, from stomach condition arising from overacidity, is to alkalize the stomach quickly with Phillips' Milk of Magnesia.

You take either two teaspoons of the liquid Phillips' after meals, or two Phillips' Milk of Magnesia Tablets. Almost instantly "acid indigestion" goes, gas from hyperacidity, "acid" headaches— from over-indulgence in food or smoking—and nausea are relieved.

Try this Phillips' way if you have any acid stomach upset. You will be surprised at results. Get either the liquid "Phillips" or the remarkable, new Phillips' Milk of Magnesia Tablets. Only 25¢ for a big box of tablets at drug stores.

Also in tablet form! Each tiny tablet is the equivalent of a teaspoonful of granulated Phillips' Milk of Magnesia.

PHILLIPS' MILK OF MAGNESIA

Luckiest Stone In World

Diamond Credited With Queer Power Bought In England

A 19-carat diamond, valued at \$60,000, which is said to be the luckiest stone in the world, has been purchased by a group in England.

Unlike the famous Hope diamond of ill-omen, which is a greenish-blue color, the "lucky" diamond is rosy-pink. It is credited with the power of warding off ill-health.

When Aaron Barbers of Paris bought it 100 years ago, he was suffering from an apparently incurable disease. Immediately after it came into his possession his health improved, and during the next 28 years of his life he never had an illness.

Since then it has been handed down from generation to generation, and it has always held the same charm.

A short time ago, the sole survivor of the family sold it.

Using New Equipment

Now Possible To Weigh Objects Without Using Gravity

The old catch question "which is heavier, a pound of feathers or a pound of coal?" qualifies as a puzzle to many people because they have only a hazy conception of the difference between the weight of an object and its mass. New laboratory equipment developed by a Chicago scientific instrument company now makes it possible to weigh an object without using gravity at all, and thus frees the student's mind from the fundamental difference between how much a thing weighs and its mass.

Teachers using the device thereby hope to overcome the erroneous interchangeable use of the terms weight and mass.—Detroit Saturday Night.

A detailed description of the process that goes into making a newspaper or magazine would require several volumes.

The 500 express bullet, used in elephant hunting, has a striking power of 2 1/2 tons.

# Royal Air Force Cross Awarded To British Aviators For Bravery

London.—Two intrepid aviators, Squadron Leader Francis Swain and Flying Officer Cyril Unwin were awarded the Royal Air Force Cross in the king's New Year's honor list for daring flights.

Swain, an experienced flyer, 33 years of age, established a new altitude record for heavier-than-air craft last September reaching 49,944 feet. He did not know until he landed that he had beaten the record of J. Detre, France, who climbed 48,098 feet at Villacoublay during the previous month. Unwin's recognition came for a flight made in 1932.

In an ordinary machine he reached a height of 8½ miles (44,880 feet). At present he is chief test pilot for the Bristol Airplane Company.

Admiral Sidney Trampin, vice-consul at Adila Alasia, was awarded a medal of the British Empire, civil section, for gallantry.

Trampin was prominent in the rescue of persons stranded at the capital of Ethiopia during the closing days of the Italian invasion last May, taking them to the British legation.

Each trip during the three days of danger involved a 10-mile drive in an open truck exposed to fire by natives rioting at the capital just before the Italian forces arrived there.

## Test Singapore Base

Four-Day Manoeuvres By Land And Sea To Be Carried Out

London.—Four-day manoeuvres by land, sea and air to test the defence of the important port of Singapore will begin this morning, it was stated in a joint announcement by the admiralty, the war office and the air ministry.

All available units of the three services will be in action. Attackers, commanded by Vice-Admiral Charles Little, will consist of the cruisers Cumberland and Dorsetshire, five destroyers, several submarines and the aircraft carrier Hermes with a striking force of more than 100 aircraft and a detachment of the Japanese military forces.

## Aid From Canada

Canadian Red Cross To Help U.S. Flood Victims

Toronto.—Canadian Red Cross Society has extended full co-operation to the United States body to bring relief to victims of the flooded areas and all contributions of money, foodstuffs, medical supplies and new clothing will be accepted by the Canadian relief organization and forwarded across the border.

Canadian railways have announced they will carry the foodstuff, clothing and medical supplies free of charge as far as the border, where they will be taken over by American railways, who are rendering the same service.

## Orders For Armaments

London.—Arthur Duff Cooper, secretary for war, in a written reply to a parliamentary question, stated orders had been placed by his department of an approximate value of £34,000,000 (\$170,000,000) between April 1 and Dec. 31, 1935. Orders representing £6,500,000 (\$32,500,000) were placed in the depressed areas during the period, he added.

# Provincial Debts Are Increasing At A Faster Rate Than Revenues

Ottawa.—Provincial debts have been increasing at a greater rate than revenues between 1925 and 1935, according to a compilation made public by the Bank of Canada. This was the first of a series of monthly statistical summaries which the bank plans to issue.

The summary gives a number of the essential features of Canadian economy, including comparative figures for several years. Graphs show the trend, for example, of the liabilities and assets of the Bank of Canada, both of which have risen almost steadily since the bank started business in 1935.

Many of the tables present statistics already partially available in other forms from the bureau of statistics. One feature is a series of tables giving the provincial indebtedness.

## Government Wheat Board

President Of United Grain Growers Recommends Supervision For Grain Exchange

Winnipeg.—Doubtful of the practicability of reviving wheat pools on a contract basis, R. S. Law, president of United Grain Growers, Ltd., proposed the Turgon Royal grain commission consider a government wheat board and appointment of a government supervisor for the Winnipeg Grain Exchange.

Confusion in the minds of farmers in western Canada as to the best marketing methods was noted by Mr. Law as he summarized activities of the grain trade. Because many farmers would a means of selling their wheat to obtain the average price of the year, the president of the farmer-owned grain company said the commission should investigate whether "it is feasible for the wheat board to supply such farmers with the type of selling they desire."

The board would pay an initial price and interim payments later as warranted, through disposal of the wheat.

The commission should also consider advisability of appointment of a supervisor for the Winnipeg Grain Exchange as recommended by the Stamp commission in 1931, Mr. Law said. Such a supervisor would make reports to the government on grain exchange activities and, according to previous evidence, would not be opposed by the grain exchange with W. J. Dowler, president of the exchange, thought a supervisor unnecessary.

Questioned by Hon. J. L. Ralston, K.C., Montreal, commission counsel, Mr. Law said he proposed the supervisor because of rumors of "short selling," selling of grain by persons not owning any grain. He had no knowledge of any extensive short selling operations, he said. Mr. Law also thought some regulation might be made to prevent foreign hedging on the Winnipeg futures market.

## Wore Political Uniform

Man Fined In England Under New Public Order

Leeds.—First case brought to court in the United Kingdom under the public order banning political uniforms has resulted in a conviction.

Magistrate Marshall decided William Henry Wood wore a political uniform while selling copies of the "Black Book" and "Action" and "The Black Shirt."

Wood was fined 40 shillings (about \$10). He was wearing a peaked cap with Fascist badges, a black shirt and black tie when arrested.

## Plans For Christening

Name For Royal Princess Has Not Been Announced

London.—The infant princess born to the Duchess of Kent Christmas day will be christened the afternoon of February 9 in a private ceremony at Buckingham Palace chapel, it was announced officially.

The name to be given the child, sixth in line of succession to the throne, has not been announced. She will be baptized with water from the River Jordan.

## For Increased Defences

Canadian Legion Endorses Proposals For Better Defences For Canada

Ottawa.—Government proposals to increase Canada's defences by sea, land and air were endorsed in a resolution passed by the Dominion executive council of the Canadian Legion at its meeting here.

The resolution expressed hope defences may be developed to make the Dominion immune from attack and to preserve her position as an independent nation "which does not seek to interfere with the rights of any other nation but only to develop its national life in a world where peace should prevail."

A committee from the executive council conferred with the government to urge "relief be immediately granted all unemployed ex-servicemen, the minimum basis of such relief to be not less than that recommended by the Hyndman commission."

It was also advocated by the committee the government introduce legislation based on the interim and final report of the Rattray commission, such legislation to provide that in the event of a final report not being received before parliament prorogues, effect be given to its recommendations by order-in-council.

The Rattray commission was appointed last year to report on the rehabilitation of unemployed war veterans.

The government has reached no decision yet concerning the representation made by the committee.

## Treaty With France

Paris Steps Projected Commercial Treaty With Canada

Paris.—An interministerial committee studied a preliminary draft of the projected Franco-Canadian commercial treaty, a copy of which was sent to Ottawa. Indications here were that the accord might be signed early in March.

Inasmuch as the French government abolished quotas covering Canadian automobiles last July, prior to conclusion of its commercial treaty with the United States, it was reported compensatory gestures would be made, particularly regarding lead and zinc imports from Canada.

The law imposing a tax on the total operations of Canadian branch banks in France was said to have been adjusted. Law suits involved in the banks' refusal to pay have been withdrawn, it was added.

## Safe Driving

Lethbridge Boasts Of No Fatal Automobile Accidents In Two Years

Lethbridge, Alta.—The boast of Galt, Ont., a city of 14,000, that not one fatal motor accident occurred within its boundaries during 1935 left the Lethbridge city police department cold.

Lethbridge has a better record than that, they said. Not one automobile fatality occurred here in 1936 nor in 1935.

In 1936 only one coroner's inquest was held in connection with any death in Lethbridge, a city of approximately 14,000 population.

Means Higher Income Tax

Stoke, Staffordshire.—Great Britain had the prophesy of a former chancellor of the exchequer that her rearmament program would cost her another threepence in the pound in income tax. Sir Robert Horne predicted raising of the income tax from four shillings and ninepence to five shillings in the pound (25 cents on the dollar) to help finance rearmament.

## SIR IAN FRASER

Famous blind British M.P., whose appointment as a Governor of the British Broadcasting Corporation has caused a vacancy in the House of Commons. The by-election will be a straight fight between Conservative and Labor candidates.

## Unaware Of Trade Plan

Canada Not Bartering With Germany States Minister Of Labor

Ottawa.—So far as the department of trade and commerce is aware no particular plan has been devised whereby Germany may obtain Canadian wheat in exchange for manufactured goods.

This was the reply of Hon. Norman Rogers, minister of labor, to a question raised by M. J. Coldwell (C.P.F., Roseville-Biggar).

As acting minister of trade and commerce, Mr. Rogers reminded the questioner the recent agreement with Germany provided that the German government would make available for the purchase of goods in Canada the proceeds from sale of goods imported from Germany. Of that total 25 per cent. would be allocated to the purchase of Canadian wheat.

For the first six months it was agreed Germany could buy wheat on a basis of "compensation trading" but there was no particular provision otherwise, for a system of bartering manufactured goods for grain.

## New Alberta Board

Formation Of A New Trade And Commerce Board Is Announced

Edmonton.—Formation of a new trade and commerce advisory board for Alberta, to be composed of 12 members, was announced here by Hon. Dr. W. W. Cross, minister of trade and industry. Pending a meeting of the full committee, H. M. Jenkins, of Calgary, has been named as temporary chairman.

The new commerce board supercedes the retail advisory committee headed by W. D. King, deputy minister of trade and industry. Dr. Cross said that under the new setup, scope of the committee would be enlarged to cover all lines of business and commerce.

## Railway Awarded Damages

Court Ruled Truck Driver Was Responsible For Accident

London, Ont.—Justice Nicol J. J. J. in winter assizes court awarded Canadian National Railways \$1,000 for damages suffered when a train struck a truckload of celery at the Hyde Park crossing here in October, 1935. The court dismissed a counterclaim entered by E. V. Breckon of Albershol, owner of the truck. The court found the driver of the truck, Robert Henderson, was responsible for the accident and condemned the truck owner to pay the cost of damage to the train and the cost of substituting another engine.

# New Capital Structure For Canadian National Presented To House

Ottawa.—Designed to show the full capital investment of the Dominion government in the property but not valueless common stock for advances to meet deficits or interest on such advances, the proposed new capital structure for the Canadian National Railways was presented to the House of Commons by C. D. Howe, minister of transport.

Rt. Hon. R. B. Bennett, Conservative leader, said he considered the minister's plan sound, but declared the important thing was to see that the railway's balance sheet at all times showed the amount of money the taxpayers of Canada had placed in the enterprise.

The change, Mr. Howe said, would do away with a duplication of \$1,500,000 between the accounts of the railway and of the government. Continuance of this duplication gave an exaggerated picture of the total debt of Canada and might prove a menace to the credit of Canada and of the Canadian National Railways. The total debt of Canada, if computed by adding the debts of the government to the debts of the railway, was \$3,750,000,000, whereas the real obligations of Canada only amounted to \$4,250,000,000.

The revision of the railway's capital structure involves:

1. Abandonment of government claims for advances to the railway to meet deficits totaling \$361,244,349.
2. Abandonment of government claims for interest on advances totaling \$496,030,137.
3. Continuance of government claims totaling \$284,283,105 on loans for capital purposes as a proprietor's common stock instead of interest-bearing debt.
4. Surrender by the government to the railway of capital stock of the Canadian National Railway Company having a par value of \$180,424,327, of which only \$165,527,738 is carried on the railway balance sheet.
5. Transfer to the railway of capital stock of the Canadian Northern Railway Company having a par value of \$82,000,000.
6. Transfer to the railway of capital stock of the Canadian Northern Railway Company having a par value of \$18,000,000 in exchange for 1,000,000 no par value shares of the Canadian National Railway Company with an initial stated value of \$18,000,000.
7. Adjustment of certain accounts relating to the government railways and the Hudson Bay Railway.

Creation of a securities trust to hold the securities surrendered by the government and maintain the government's equity in case of litigation.

"This change in the capital structure," said Mr. Howe, "involves no change whatever in the net debt of Canada. Any claim against the railway on behalf of the government is maintained in exactly the same position."

"The change in capital does not involve the writing out of the balance sheet of any amount that was expended on the railway for capital purposes, the amount which created an earning asset of the railway, although its position is being changed from bond interest to proprietor's equity."

In effect, the new arrangement will wipe out the capital stock shown in the railway's balance sheet from the Grand Trunk Railway and the Canadian Northern Railway which were merged in the Canadian National.

## Named For Peace Award

President Roosevelt Is Cuba's Candidate For Nobel Prize

Havana.—The Cuban cabinet unanimously approved President Roosevelt as Cuba's candidate for the 1936 Nobel peace prize because of his work in the recent inter-American conference at Montevideo. This was suggested by Rafael Montalvo, secretary of state.

The Nobel peace prize is awarded by a committee of five elected by the Norwegian storting (parliament). The 1935 prize went to Saavedra Lamas, foreign minister of Argentina.

## Admits Story Was Hoax

Edmonton Boy Confesses Report Of Robbery Was Untrue

Edmonton.—Royal Canadian Mounted Police announced that Willie Lagadyn, 12-year-old Edmonton newspaper carrier, had admitted his story of being "taken for a ride" by two men, bound and thrown in a snow-drift after being robbed of \$4.50 was a hoax.

The boy confessed his report of a "gangster" type robbery was made because he had lost the money and was afraid to tell his parents, police said.

# Privy Council Delivers Judgment Respecting Reform Measures

1935. This provides for bringing together a farmer and his creditors for a settlement of debts along bankruptcy lines without actual recourse to bankruptcy courts.

The following measures were found ultra vires:

1. Employment and Social Insurance Act, 1935. This measure would have created a contributory system of unemployment insurance and set up employment agencies.
2. Weekly Day of Rest in Industrial Undertakings Act, the Minimum Wages Act, and the Limitation of Hours of Work Act, 1935. These several acts were based on conventions agreed to by the international labor office.
3. Natural Products Marketing Act, 1934, and amending act of 1935. These provided for creation of marketing boards with wide powers for control vested in producers.

In holding the Minimum Wage and Hours of Labor acts ultra vires, their lordships defined for the first time the limitations attaching to the Dominion parliament's power to give effect to international treaties since Canada acquired her present status under the Statute of Westminster. They declared that under the distribution of powers between the Dominion and the provinces in the British North America Act, "there is no such thing as treaty legislation as such."

"The distribution is based on classes of subjects and as a treaty deals with a particular class of subjects so will the legislative power of performing it be ascertained," the judgment said. "No one will doubt that this distribution is one of the most essential conditions in the most essential condition of the interprovincial compact to which the B.N.A. gives effect."

Measures giving effect to some of the recommendations of the Stevens commission on mass buying were declared constitutional, as was the law providing facilities for the liquidation of the debts of insolvent farmers along bankruptcy lines but without actual recourse to the bankruptcy courts.

These measures were declared valid:

1. Dominion Trade and Industry Commission Act, 1935. This would empower a federal commission to regulate business provincially, interprovincially and in relation to the Dominion as a whole.
2. Section 498a of the criminal code of Canada. This section sets forth penalties for breach of regulations made by the Dominion trade and industry commission.
3. Farmers' Creditors Arrangement Act, 1934, and amending act of 1935.

## WHERE FLOODS TOOK HEAVY TOLL

Residents of Cincinnati found the problem of obtaining supplies a difficult one when flood waters marooned many families, necessitating delivery of food in boats.

**NOTES AND COMMENTS**

AN OPTIMISTIC note is sounded in Mayor Pattinson's review of town affairs. Writing from Victoria amid pleasant surroundings, he may be looking through rose-colored glasses, or again distance may lend enchantment to the scene, and Coleman thereby may seem as a glistening gem in a setting of winter snows and sub-zero temperatures.

HIS POLICY of town government is to pay as you go, and incur no debts. It is a sound method. On the other hand, there is a crying need for road improvements as revealed by complaints at the ratepayers' meeting. Decided opinions on this were expressed by residents from the centre townsite and West Coleman. People suffer from the dust nuisance when much could be done towards lessening it, especially that caused by automobile traffic. To pay for all public improvements out of current revenue is the aim of the mayor; but on the other hand the people might enjoy the benefits of street improvements by a debt burden which the town could easily carry. The cost would also be more evenly divided were it spread over a term of say five years.

ON MONDAY ratepayers will have the opportunity to record their votes for the re-election of the three trustees, or those opposed to them. The record of the three nominated for re-election is known. They have given good service. It is the privilege of any citizen of group of citizens to nominate candidates in opposition to the present trustees, but they should also make known the reasons for their opposition to the present board and their policies, otherwise people ask on what grounds they appeal for votes.

INGRATITUDE to those who engage in public service is always evident. You may get a pat on the back to-day and to-morrow you may be crucified by insinuation and innuendo. We have observed it so often that it is taken as a matter of course, and we might say it breeds a somewhat cynical attitude towards public opinion in the mass. The public believe they think for themselves. Undoubtedly they think, but how often are they led or misled by illogical and irresponsible individuals who use their own animosities to arouse public opinion in order to gain a political or personal advantage?

OUR SCHOOLS take the major portion of taxes. Good salaries are paid in comparison with other districts, therefore ratepayers expect efficiency. The place to make criticism or complaints is at board meetings, not on street corners. If suggestions with a view to improving the personnel or the teaching methods of Coleman schools are considered worth while placing before the board, by all means bring them out into the light of free and frank discussion. That has been the policy of the present board.

FREQUENTLY the question is asked—how did Coleman receive its name. Billy Jenkins, resident here since 1903 with the exception of three years overseas service, states it was named by a surveyor whose name was Coleman. "The first child born here was named Stanley Coleman Smith, whose parents were members of the Mormon church, and now reported to be living in Drumheller. Other early residents were the Unsworths, and Mrs. Unsworth was the first matron of the hospital. If any reader of The Journal living here or in distant parts of Canada can furnish further information on Coleman's origin, it would prove interesting.

A DISCUSSION has arisen on the accuracy of thermometers. It is a trifling matter, but it arouses interest. On an unusually cold morning almost everyone has a different reply to the query: "How cold was it last night?" Coleman usually is conservative, and the International mine thermometer is taken as a standard for local temperature records. Invariably Blairmore will come out with a ten degree lower record than Coleman, which makes us doubt the accuracy of the thermometer or the eyesight of the person who publishes the record. Sault St. Marie in Ontario at one time published tall stories of timber wolves attacking people, until the daily newspapers decided that they were washed out (the stories, and maybe the wolves). If Blairmore wishes to rival White River, Ont., reputedly the coldest place in Canada, where the frost freezes potato plants in July, it is welcome to it. Of course, there always has been more warmth in Coleman than in Blairmore, where the populace is so cold it does not turn out to help the hockey team.

THIS COLUMN is intended to be impersonal, giving a review of local topics of interest. Some may agree; more than likely those who do not agree will plainly tell us. However, if you have an opinion on anything from how to rear a baby to what you would do if you were mayor, let's have it. It will interest readers of this family journal. The world is waiting for the surprise.

CONFIDENCE can be built up like a pyramid, but like a pyramid it must have a good foundation.

**MAYORALTY CANDIDATE**

C. J. TOMPKINS

Resident of The Pass for 28 years, and well known as district representative of Sun Life Assurance Co., is receiving the support of a large section of the Blairmore people as candidate for the mayorality. He has served on the school board in previous years, and was on the village council of Frank in the days when it was the coming metropolis of The Pass. He is opposed by Enoch Williams, miners' candidate.

Another public-spirited citizen of Blairmore, W. H. Chappell, is a candidate for the school board, who with Ed. McDonald and Sam McDowell are being opposed by a miners' slate including A. Bosetti, M. Krosky and A. Hae. A. Bosetti, present chairman, is seeking re-election.

"BB" Knight, former favorite of the radical element, and mayor for the past four years, is not in the field.

Blairmore for some years has been rent by opposing factions of radicals and moderates.

Independent candidates for the town council are M. H. Congdon, Robert Oakes and L. J. Pozzi, and opposed to them are E. Morgan, R. Perisani and A. J. Olson as the miners' candidates.

**Election Contest**

(Continued from Page 1)  
port on council activities. The meeting lasted one hour, and reports were accepted with very little questioning. The school district meeting, presided over by Arthur Reid, chairman, opened with the reading of the auditor's report, and a review of the year's work, of which a full report is printed in this issue.

He had barely time to ask if there were any questions when Frank Paterson, caretaker of Central School, asked if the chairman knew what university degree the principal held. He then produced a letter which he asked Mr. Rushton to read, which evidently was in reply to an enquiry he had addressed to the Department of Education, which stated that the principal had a first-class teacher's license. Pushing the question further after reading the letter, he persisted in asking the chairman if he knew the principal's qualifications, until reference to the secretary's files showed that he had the degree of Master of Science from Manchester University.

Then Caretaker Paterson wanted to know why the chairman visited the school each day, and addressed other pertinent remarks to the chair, until Councillor Hayson rose and pointed out that the caretaker was entirely out of order, and that the meeting should be confined to the business for which it was called. If the questioner wished to secure information he would be given the opportunity at the adjournment of the meeting.

No inspector's report being submitted, and the reason asked why, the chairman stated it was open to any ratepayer to read, but it was not to be read at a ratepayers' meeting. One ratepayer stated he considered it dictatorial on the part of whoever made the ruling that the report should not be read at a ratepayers' meeting, and asked, was it to protect weak seniors in the teaching profession that it was not placed before the ratepayers' meeting? The chairman stated, however, that it was available for any individual ratepayer.

John Rushton complained that the assessor gained admittance to his house in the course of his duties without having any outward badge of authority or credentials from the council. He was promised this would be attended to.

In regard to grading on Sixth street last summer, a ratepayer pointed out that it was in a worse condition after grading than before, and it appeared like wasted effort and expense unless the job was to be completed by surfacing. Dust annoyances had increased, and after the surface had been wind-blown, the rocks were protruding as much as ever. The work should either have been finished or left until such time as it could be

**Notice of Poll**

PUBLIC NOTICE is hereby given that an Election will be held for the offices of Trustees of Coleman School District for 1937 and 1938, and that Polling will take place on

Monday, February 8, 1937

from 10 a.m. until 7 p.m. at the TOWN HALL, and that I will at 8 p.m. on that date sum up the votes and declare the result of the Election.

made a satisfactory job.

Other ratepayers complained of dust from automobile traffic, both in the townsite and in West Coleman, and urged that steps be taken to abate the nuisance by surfacing the worst places.

The question was asked, why are five teachers employed in the high school instead of three as formerly? The answer given was that the new curriculum required the extra teachers. Another question was that minimum number of teaching days required, and how many days sick leave are teachers allowed with pay. The chairman replied that 200 days was the minimum, and 20 days was the maximum allowed with pay to any teacher for sickness, the board paying for substitute teachers.

No other matters of importance coming up for discussion, the meeting was adjourned at 10 p.m.

**Mayor's Report**

Following are extracts from Mayor Pattinson's letter from Victoria, addressed to Deputy Mayor Hayson and read at the ratepayers' meeting:

"In the year 1934 electric light rates were reduced from 12c to 8c per kilowatt hour. A further reduction in 1935 cut the old rate of 12c almost in half. The council was also successful in securing 20% reduction in the water rate. Last year we put in new paving on Main street. We hope to continue improvements, and these and various other improvements since 1932 have been made without raising the mill rate.

"The town has no debts, and with a rate of 20 mills will compare very favorably with any city or town not only in Alberta but in the Dominion. I would ask you to read the auditor's statement very carefully, so that you may see what is being done with your money.

"In 1936 we collected \$15,108.98, close to 100% of the taxes, but we still have owing the town in tax arrears \$10,673.58. Many improvements could be made if that money was in the hands of the town council.

"This year water was laid to the cemetery, old posts replaced and further repairs are contemplated in 1937. This work was done by men who owed taxes, but could not pay in cash. The council used their judgment, and where money for taxes could not be had, work was gladly accepted. In 1936 \$4,200.00 was paid in relief; the town received from the government as their share \$1,439.70.

"I could go on and write pages, but do not want to do that. Once you have elected a mayor and a council, stand by them and help them, as it is the taxpayers who profit or lose by what the council does. Make up your mind that in 1937 you are living in the best town in Alberta.

"Your obedient servant,  
George Pattinson, Mayor."

to Lethbridge jail for vagrancy; 1 sent to Lethbridge for false pretences; 1 serving two years in jail armed holdup; 3 assault cases; 1 was fined for breaking and entering.

Approximately \$60 in goods and moneys stolen from stores was recovered and returned to the owners.

The Town of Coleman engaged Douglas Lowe of Lethbridge as night constable, from the 12th of August 1936 until the 12th of October 1936, and the council found him very satisfactory.

I have collected all the licenses from transient traders and peddlers; all that possibly could be collected.

# ICE CARNIVAL

— COLEMAN ARENA —  
**WED., FEB. 10**  
 Commencing at 7.30 p.m.  
**CONSTANCE and GRAHAM MILLER Champion Fancy Skaters of Western Canada**  
**ADMISSION: ADULTS 25c HIGH SCHOOL STUDENTS 15c PUBLIC SCHOOL STUDENTS 10c**

## School Principal's Rep't.

**Teachers:**  
 High School, 5; Public School, 14; total 19. All High School teachers have university degrees.

**Students:**  
 Central Public School:  
 Boys 189; girls 204, total 393.  
 West Coleman Public:  
 Boys 67, girls 86, total 153.  
 Total in Public Schools:

Boys 256, girls 290, total 546.  
 Total High School students:

Boys 47, girls 62, total 109.

Grand Total of all students:

Boys 303, girls 352, total 655.

The average attendance during the year was approximately 95% of the possible attendance.

**Examination Results—**The results of the Departmental Examinations held in June, 1936, showed a slight advance over those of June, 1935—the

percent attained in 1936 was 86.7% of that possible.

During the year 1936-7 new courses of study were introduced in the public school grades 1 and 6 and also in Grade 9 of the high school. Grades 7 and 8 have also been departmentalized in charge of three teachers and changes made in their courses of study to make preparation for their entrance into the new Grade 9 work next year.

## CHAIRMAN'S REPORT TO THE RATEPAYERS' MEETING

(Continued from Page 1)

give more encouragement to sports among the pupils and especially now that the new curriculum includes physical training as a compulsory subject. We have spent varying amounts for equipment and hockey teams at the rink, and now have several requests for additional teams. We are rather at a loss as to how much money we would be justified in spending on this, especially as later on in the year there will be baseball, basketball, softball, etc., to provide for. An expression of opinion from the ratepayers would be appreciated.

Early in the summer Mr. Bremner, school inspector, met the Board to ascertain what we intended to do about the children living in the vicinity of Sentinel who were not attending school. A survey was made and it was found at that time there were 14 children of school age who were not attending school. We made inquiries as to what it would cost to convey these children to school and the best we could get was \$3 per round trip. As we had no previous experience with this work, we asked the Department to give us a fair rate per mile, but were unable to get anything definite.

## Re-Nominated

ARTHUR REID

Chairman of School Trustees nominated third time. First elected in 1933 with 591 votes. The Department admitted that the conveyance work with the Board, but that the Department must take the view that these children could not be expected to walk a distance of six miles to and from school and if we could not provide conveyance they had no alternative but to investigate whether a new district should be set up at Sentinel. We therefore called for tenders for conveying these children to and from the Cameron school and entered into a contract with Sam Moores for \$2.75 per round trip from January 1st to June 30th, 1937. We collect a total of approximately \$1,350 taxes from that section of the district.

In the early summer we were visited by an epidemic of scarlet fever and were compelled to close the schools for two weeks. We engaged a nurse to work in conjunction with the medical health officer inoculating the children; thoroughly cleaned and fumigated all the schools and in this way kept the epidemic within bounds and prevented any fatal results.

For some years back we have been faced with the problem of providing proper accommodation for the number of pupils outside the Central School and last year we felt that the time had come when something definite should be done. We therefore had plans prepared for a six-room school and auditorium. These plans were accepted by the Board on August 18th and a ratepayers' meeting called for September 4th when they were endorsed by the ratepayers and the Board authorized to proceed with the construction of the building. In the meantime we had purchased the Powell property for \$2,000 which gave us sufficient room for the new building.

After the plans were approved by the Department of Education tenders were called for and on October 6th a contract was awarded to J. S. D'Appolonia for \$31,300. Construction was started immediately and the corner stone was laid on November 11th with appropriate ceremony. The building is now nearing completion and we expect to occupy it early in March. To insure proper supervision of the work and materials, H. W. Meech, architect, of Lethbridge, was engaged to supervise the construction and a local inspector appointed to work under him. The work is also being carefully watched by the individual members of the Board and it is our unanimous opinion that we are getting a very good job.

After the new school is occupied we proposed to dispose of the old buildings by tender and to properly grade and improve the property.

The new school is insured for \$25,000 by the contractor and we also have a guarantee bond for \$11,000 on workmanship and material for one year. Also a 15-year guarantee on the roof.

Two big hits come to the PALACE during the coming week. On Saturday, Monday and Tuesday, Shirley Temple appears in "Stowaway." In the supporting cast are several of the scene's leading stars such as Robert Young, Alice Faye and Arthur Treacher, the English butler.

If you are in favor of a continuance of the  
 Policy of the Present School Board

## "Be It Ever So Humble"

IT is to the "humble homes" of Canada that the great majority of Life Insurance payments find their way.

Many such homes today would lack the necessities of life—were it not for the "little savings" which thrifty parents have set aside periodically in Life Insurance.

To the family which loses its breadwinner, Life Insurance means money to buy food and clothing—money to pay the rent—money to pay household bills—money to educate the children. Life Insurance also

means, in many cases, independence of private charity or public relief.

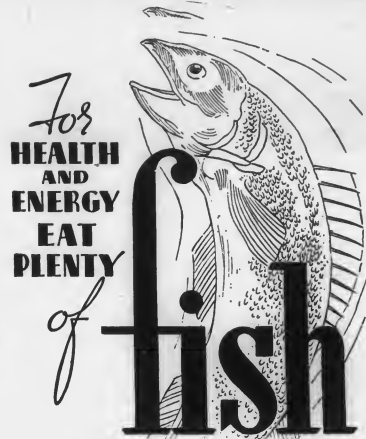

In your own community, as well as in hundreds of cities and towns across Canada, "little savings" in Life Insurance are doing "big jobs". During the past six years, policyholders and beneficiaries in Canada have received, daily, from their Life Insurance Savings, half a million dollars.

"Be it ever so humble"—there's no home which cannot have the much-needed protection of Life Insurance.

Guardian of Canadian Homes

Make Canadian Fish and Shellfish a healthful and appetizing variation of your diet. Whatever form is most easily available to you—fresh, frozen, canned, smoked, pickled or dried—you will find it the food of health, tastiness and economy. Health, because Fish Foods are rich in proteins, minerals and vitamins for good general health—in iodine, so vitally needed inland—in copper for good rich blood—and others.

Tastiness, because Fish is a real fine-flavoured delicacy, quickly and easily digested and adapted to dozens of simple and delightful recipes. Economy, because Fish Foods give you full value in nourishment for every cent spent.

Canadian Fish and Shellfish are noted throughout the world for quality and flavour. Bring this pleasure more often to your table also.

## Local News

Miss Shaylor of Crows Nest visited at Lethbridge over the week-end.

Mrs. Campbell of Creston is the guest of her daughter, Mrs. Russell Vincent, and husband.

A boy was born to Mr. and Mrs. Robert Wilson, Sixth street, on Jan. 30th.

Mrs. T. Murphy and baby daughter, of Kimberley, were recent guests of Mr. and Mrs. S. B. Ryan.

Mrs. W. Jones is visiting at Lethbridge, the guest of her parents, Mr. and Mrs. G. McNabb.

Joe Spievak is becoming quite active—on crutches. He suffered from a badly sprained ankle, which laid him off work for some time.

Miss Marion Quail of Medicine Hat journeyed to Lethbridge on Saturday for the Leaf-Canadian game. Jack Quail, local defence man, is her brother.

James Fairhurst left hospital Tuesday after three weeks and is convalescing at his home from a severe attack of asthma, which has kept him from work since before Christmas.

Mrs. M. W. Ferguson was hostess to a number of friends at a bridge party on Wednesday of last week. Three tables were in play, prize winners being Mrs. A. Beveridge, Mrs. Jack Rogers and Mrs. S. Murdoch.

Two rinks, the personnel of which are F. Antrobus, J. S. D'Appolonia, Ed. Ledian and S. Moores, skip, and A. Oliva, A. Gentile, A. Destobel and H. Boulton, skip, are representing Coleman at the Crows Nest Pass curling bonspiel being held at Fernie this week.

M. Andrechuk of East Coleman was charged before Magistrate Gresham with illegally selling liquor at his residence in East Coleman. Sergeant Cawsey, R.C.M.P., conducted the prosecution, and F. C. McKenna, barrister, Pincher Creek, defended. Accused was fined \$300 or three month's imprisonment. He was allowed 14 days in which to pay the fine or appeal the case.

**A Great Picture Next Week at Palace**

"The Charge of the Light Brigade" made immortal by their unparalleled bravery and Tennyson's famous poem, will be depicted on the screen at the Palace theatre next Wednesday, Thursday and Friday. Who has not thrilled to these lines:

"Stormed at with shot and shell,  
Boldly they rode and well,  
Into the jaws of Death,  
Into the mouth of Hell,  
Rode the Six Hundred!"

Errol Flynn and Olivia de Havilland play the leading roles.

## Canadian Legion

### Discussing Coronation

At a special meeting on Sunday, Legionnaires appointed a committee to arrange for the proper observance of the Coronation of King George VI. on May 12. It is likely they will ask the town council to take the lead in a civic ceremony to fittingly mark the day.

The holding of a carnival late in May was also discussed with a view to raising additional funds for the proposed club. Committees will report at the next regular meeting on Friday, Feb. 19 in the Oddfellows hall.

The High School Music Class will hold a tea in St. Alban's parish hall on Saturday afternoon from 3 to 6 o'clock. 25c charge. Everybody invited.

### NOTICE

TAKE NOTICE that I shall not be responsible for any debts contracted by my wife Leona Jumarich from and after 4th February.

Dated at Coleman Feb. 4, 1937.  
—Steve Jumarich.

### ANNOUNCEMENT

A. Melville Anderson, eyesight specialist, of Calgary, will make his next visit to Coleman.

**FRIDAY, FEBRUARY 5th** at the jewelry store of J. M. Chalmers, Coleman.

Over 20 years experience and regular visits to this town assure you satisfaction in all optical work.
